

Audi R8C

2002-2012 decennial

Emilia Romagna is the Italian Motor Valley: here, the same thoroughbred genes that link the likes of Ferrari, Maserati, Dallara, Ducati, Lamborghini are passed down to the small scale 1:32 models made by Slot.it.

In 2002, the company from Reggio Emilia already well known for its precise racing parts and universal chassis, issued its first complete model car, a reproduction of the Audi R8C, a prototype which raced in Le Mans in 1999.

Historians dub the R8C by as the model that marked a before and after in slot racing.

Since its debut with a stunning 1-2-3 at the 24 hours of S.Celoni, through various revisions of chassis and bodywork that kept it up to the latest technology, this model has been at the forefront of slot car racing for

10 years. We at have chosen to reissue this special model, from the original chassis and bodywork moulds of the first Audi R8C series, to celebrate the decennial of this historic racer.
